# Steinmetz Finds No Science in Religion Daily Calendar

## Says They Are Antagonistic, but Not Necessarily Incompatible—Question of Immortality Is an Open One.

Schenectady, Nov. 5.—Science and conceptions of God, immortality, infinity, religion, regarded as increasingly antagonistic, are not necessarily incompetible but are different and unrelated activities of the human mind, said Dr. Charles P. Steinmetz, consulting enter of the general flectric Company, in an address prepared for delivery today in All Souis Church at the annual different spirit on the part of the Republicans and independents toward the election of our tried and true Governor Miller, and thus, by the apathy of Tam-

Surely with the continual increase of no God, no immortality, no soul or mind school accommodation required the citi-

where was.

"Thus there is no evidence outside of clence for God, immortality and similar conceptions, and there is evidence against less conceptions in science, and science as justified its methods and conclusions by the work it has accomplished.

"How can we approach its solution, and can we ever get an answer on the question of the existence of the infinite? The best we can expect to do is to search into the foundations and limitations of our mental processes to determine how far conceptions are really contradictive and how far conceptions are really contradictive was and how far conceptions are really contradictive.

God, but not without immortality. Our self-conceit dislikes to place so little value on ourselves, our knowledge, skill, experience, in short our ego, to concede that all this is merely a function of the blochemical process of life, which utterly cases and vanishes with the distinct of the protoplasm of our the blochemical process of life, which utterly cases and vanishes with the distinct of the protoplasm of our body by death.

The man and all that we can say is that the two, science and religion, are not necessarily incompatible, but are different and unrelated activities of the human mind.

We took our love together to the park Bare were the burnished maples overhead,

Had southward borne his song long

The luster lost, the first fresh wonder gone; When passing youth has left us old and

You lifted eyes, as startled as a child That fears an unseen presence; then

And stood above-nor touched me-only

It was enough—a glory broke above.

In a word, she has had an ideal preparation on several products to give coal the search out the missing links in understanding children's problems. In a word, she has had an ideal preparation of the United States have had so large an expensionally, to elisten patiently to evidence, to give each factor its own the search out the missing links in understanding children's problems. In a word, she has had an ideal preparation of the United States have had so large an expensionally.

reducing the damage done to the city pavements by fires.

This occurs to a larger extent in the election night celebrations than at any other time. The total damage to pavements each year in the Borough of Manattan equals the cost of an average school building.

Surely with the continual increase of series and less satisfactory.

"In the realm of science all attempts to find any evidence of supernatural beings, of metaphysica, conceptions, as God, immortality, infinity, &c., have field of such conceptions has steadily narrowed until, if we are honest, we must confess that in science there exists no God, no immortality, no soul or plind.

must confess that in science there exists no God, no immortality, no soul or mind as distinct from the body, but scientifically God and immortality are illogical conceptions. That is, science had inevitably to become atheistic.

"There remained only 'Revelation' as the foundation of the historical conception of religion. But is there any difference between the 'dream' of prehistoric man, in which he 'sees' wonderful things, and the 'Revelation' of Mohammed' or Buddha or Moses or other founders of religions, all contradicting each other?

"Furthermore, science derives its conclusions from the sense perceptions by the laws of logic. But what proof is the laws of logic. But what proof is the laws of logic except experience, which, no mather of the correctness of the laws of logic except experience, which, no mather of the correctness of the laws of logic except experience, which, no mather of the correctness of the laws of logic except experience, which, no mather of the correctness of the laws of logic except experience, which, no mather of the correctness of the laws of logic. But what proof is the laws of logic except experience, which, no mather of the correctness of the laws of logic except experience, which, no mather of the correctness of the laws of logic except experience, which, no mather of the correctness of the laws of logic. But what proof is the laws of logic. But what proof is the laws of logic except experience, which, no mather of the correctness of the laws of logic except experience, which, no mather of the correctness of the laws of logic except experience, which, no mather of the correctness of the laws of logic except experience, which, no mather of the correctness of the laws of logic except experience, which, no mather of the correctness of the laws of logic except experience, which, no mather of the correctness of the laws of logic except experience, which, no mather of the correctness of the laws of logic except experience, which, no mather of the correctness of the laws of logic except

"Thus there is no evidence outside of science for God, immortality and similar conceptions, and there is evidence against these conceptions in science, and science has justified its methods and conclusions by the work it has accomplished.

"But it is very hard for man to get along without a belief in these conceptions. We may get along without a belief in these conceptions are really portland, Me. 54 illustrations of our mental processes to politically determine how far conceptions are really portland, Me. 54 illustrations of our mental processes to politically determine how far conceptions are really portland, Me. 54 illustrations of our mental processes to politically determine how far conceptions are really portland, Me. 54 illustrations of our mental processes to politically determine how far conceptions are really portland, Me. 54 illustrations of our mental processes to politically determine how far conceptions are really portland, Me. 54 illustrations of our mental processes to politically determine how far conceptions are really orthogonal determine how far onceptions are really orthogonal determine how
